

How Are Technology and Society Related?

Science Words

Say each word quietly to yourself. Then read the meaning.

Read the tip to help you remember.

technology [tek•NAHL•uh•jee] anything that people make or do that improves the natural world

Technology, train, and tunnel begin with the same sound. Trains and tunnels are examples of *technology*.

Science Concepts

Read the Ideas more than once. Do your best to remember them.

1. Technology is not just computers and cell phones.
2. Clocks, clothes, suitcases, and toothbrushes are examples of technology.
3. Technology changes over time.
4. For example, trains today are different from trains long ago.
5. Technology affects how people live and what they do.
6. People affect technology when they invent new things.
7. Trains are an example of how technology and society are connected.
8. New technology helps trains meet people's needs and wants.
9. A tunnel is technology that helps big trains travel between cities.
10. Cameras, cars, and phones are examples of technology that has changed.
